

INTRODUCTION

Laxton's 2026 pricing data is prepared from "first principles" with the results indicating labour allowances and the cost of materials required for each item of work.

Laxton's 2026 has up to date prices in an easy to follow and comprehensive format. The main contents page and the index section enable quick identification of specific items. There is also a contents list to the Existing Site/Buildings/Services section to assist those pricing alteration works and an index to Products and Services.

The construction industry continues to be affected by inflation, high energy costs, global economic issues and a shortage of skilled and unskilled labour. Labour costs continue to rise significantly, exacerbated by a lack of young labour, skills shortage and a demand for specialised green energy roles.

Products that are no longer in great demand, or have been replaced by an alternative, are subject to higher prices or are no longer available. Alternative materials should be considered to offset these increases in cost. Many products come and go each year and Laxton's endeavours to ensure that new products, changes in name and specification are reflected. However, the range of new products coming to the market is wide and users are welcome to make suggestions for items that they consider should be included.

The information detailed will be of interest, and may be used by, Cost Estimators, Quantity Surveyors, Contractors, Sub-contractors, Self Builders, Architects, Developers, Students, Government and Public Authorities and those interested in the cost of building works.

Users should understand the limitations of any price book or pricing structure and should familiarise themselves with the introductory sections including "How to Use", "Essential Information", "Regional Variations" and the "Preliminaries Section". When pricing major quantities of an item, a firm price should be obtained from a supplier.

The Price Book is structured generally in accordance with the Standard Method of Measurement of Building Works (SMM7) which follows the format of the 'Common Arrangement of Work Sections for Building Works 2nd edition' (CAWS) published to encourage Project Information to be co-ordinated throughout the industry.

SMM7 and Uniclass follow the rules developed by The Construction Project Information Committee (CPIC), these rules are suitable for any professional working to CPI (Construction Project Information) or Uniclass standards. The RICS has replaced SMM7 by the New Rules of Measurement (NRM) which has moved away from CAWS to adopt its own system of indexing. Uniclass table J is based on the Common Arrangement and is used for organising information in specifications and bills of quantities and for classifying information on particular types of construction operations and is reflected herein.

The user is urged to read the relevant sections of SMM7 to ensure understanding of the measurement rules, definition rules and coverage rules to be observed. Certain labours and materials are deemed to be included in the measured items (and prices) without mention, and care should be taken to ascertain precisely the extent of these labours by reference to the Coverage Rules in SMM7.

The detailed rates can easily be applied to items measured in accordance with the New Rules of Measurement (NRM2) as published by the RICS. Laxton's 2026 is also available structured in accordance with the New Rules of Measurement and further information is available from the publishers and the website.

The "Build-up" of the "All-in" labour rates has been calculated to include the basic Labour Rates and National Insurance contributions and is illustrated in the Preliminaries/General Conditions pages. All-in labour rates are shown at the head of each page in each of the Work sections. The National Agreed Wage award included in this edition was applicable from 30th June 2025. The plumbing and electrical wage rates included herein come into effect on 5th January 2026. The National Insurance rates come into effect on 6th April 2025. Material prices used are those current during September to November 2025.

The internet has made it possible to easily obtain competitive prices and check that quotations received are competitive even where large quantities are required so it is still worthwhile searching the internet for pricing information. The prices used have been obtained from a mixture of online prices, quotations from suppliers and suppliers price lists with an allowance for delivery costs included. No allowance has been made for stock issues where prices were available.

The analysis of materials included has shown that an item may consist of a number of different materials which have different waste factors. The waste % indicated within the book is for the predominant material.

The Basic Prices of Materials sections are linked to the built up prices in the delivered to site column of the priced sections.

The Composite Prices section has prices linked to those included in the detailed priced sections and is useful for those who wish to produce a quick estimate as a guide perhaps for budget purposes. Care must be taken to include items not described.

The Approximate Estimating section has been costed to enable complete buildings to be priced following the format of the Standard Form of Cost Analysis as published by BCIS. The section gives examples of a detailed analysis for a detached house and an office block together with alternative composite prices enabling quick and comprehensive estimates to be produced and amended as detail design continues. Users should note that alternative forms of construction, as well as compliance with the latest Building Regulations and the requirements to achieve reductions in carbon emissions, will need to be incorporated in any cost estimate. This section has been tailored to the needs of the Contractor and Quantity Surveyor for approximate estimating data in detail but in a simpler format than can be obtained from other sources. Descriptions in the approximate estimating section have been abbreviated and care must be taken to understand the extent of works included. Allowances should be added for any changes from the norm.

Regional Variations in construction costs occur and allowances should be made for the location where the works are to be carried out. Not all materials incur regional variations, such as ironmongery, with some resources being subject to greater regional variation than others although differences in delivery costs will need to be considered. Further information is included in the Essential Information chapter. The prices in this book are based on national average prices of 1.00.

The Landfill Tax (Qualifying Material) Order 1996 and 2011 gives a lower rate for inactive (or inert) waste for materials listed (eg rocks or soil) and a standard rate for other waste.

Rates are:-

	Standard Rate	Lower Rate
01.04.14 to 31.03.15 –	£80.00 per tonne	2.50
01.04.15 to 31.03.16 –	£82.60 per tonne	2.60
01.04.16 to 31.03.18 –	£84.40 per tonne	2.65
01.04.18 to 31.03.19 –	£88.95 per tonne	2.80
01.04.19 to 31.03.20 –	£91.35 per tonne	2.90
01.04.20 to 31.03.21 –	£94.15 per tonne	3.00
01.04.21 to 31.03.22 –	£96.70 per tonne	3.10
01.04.22 to 31.03.23 –	£98.60 per tonne	3.15
01.04.23 to 31.03.24 –	£102.10 per tonne	3.25
01.04.24 to 31.03.25 –	£103.70 per tonne	3.30
01.04.25 to 31.03.26 –	£126.15 per tonne	4.05
From 01.04.26 to	£130.75 per tonne	8.65

Users of Laxton's should note that the Landfill Tax has been included within Disposal items with alternatives for Inert, Active and Contaminated materials. In this edition the standard rate of tax included is £130.75 per tonne and lower rate of £8.65.

The Construction (Design and Management) Regulations 2015 must be observed, and it is a criminal offence not to observe the regulations. The CDM regulations place specific requirements upon Clients, Principal Designers, Designers, Principal Contractors, Contractors and Workers.

A

Above ground foul drainage	R11
Access chambers: other than drainage	P30
- control systems	W40
- - - specified as part of a simple electrical installation	V90
- covers/ panels: drainage	R12
- - - services	P31
- - - suspended ceilings	K40
- raised floors	K41
Accessories: cast into in-situ concrete	E42
- channels	Q10
- edgings	Q10
- for electrical services	Y74
- - walling (brick/ block/ stone)	F30
- kerbs	Q10
- paving	Q10
Accommodation: site	A41
- site, for employer's representatives	A36
Acoustic insulation and sundries	P10
- treatment/ silencers	Y45
Adhesives	Z20
Admixtures for concrete	E10
Advertising display/ illuminated	W22
Aerials	W20
Aggregates for concrete	E10
Agreement certificates	A33
Air bricks	F30
- conditioning	U
- - conditioning: dual-duct	U32
- - fan-coil	U41
- - hybrid system	U50
- - induction	U40
- - local units (specified as part of a simple electrical installation)	V90
- - low velocity	U30
- - multi-zone	U33
- - systems	U30-U60
- - terminal heat pump	U43
- - re-heat	U42
- - units	U60
- - VAV	U31
- curtains	U70
- ductlines/ ancillaries	Y30
- - ancillaries: equipment for	Y40-Y46
- extract systems	U10-U17
- filtration	Y42
- fresheners	Y44
- handling units	Y40
- supply systems: compressed	S30
- - instrument	S31
- treatment	Y44
Air: compressed	S30
- instrument	S31
- warm air heating	T40
- - - (self-contained specification)	T41
Alarm: fire/ smoke detection	W50
- liquid detection	W54
- security detection	W41
Algae removal	C40
Alterations	C
Alterations: spot items	C90
- supports	C30
Alternative fuel boilers	T16
Aluminium: isolated structural members	G12
- strip/ sheet coverings/ flashings	H72
- structural decking	G30
- - framing	G11
Amenity special surfacings	Q26
Amplification (sound) systems	W12
Anaesthetic gas extract	U17
Anchor bolts/ boxes in in-situ concrete	E42
Anchored reinforcement for plastered coatings	M30
Anchors (ground): reinforced earth	D41
- - soil stabilisation	D11
Ancillaries: air ductlines	Y30
- pipeline	Y11
Anodising	Z33
Anti-corrosion treatments	Y91
Anti-graffiti coatings	M60
Anti-static flooring	M50
Appliances: sanitary/ fittings	N13
Architect	A10
Architectural salvage	C20
Area lighting systems	V41
Arena lighting systems	V42
Asbestos removal	C21
Ashtar walling/ dressings: cast stone	F22
- - - natural stone	F21
Asphalt finished proprietary roof decking	J22
- flooring/ floor underlays	M11
- roads/ pavings	Q22
- roofing/ insulation/ finishes	J21
- tanking/ damp proofing	J20
Associations	A01
Audio facilities for public address/ conference	W12
Audio-visual systems	W20-W23
Auditorium equipment	N31
- lighting systems	V42
Authorities: work by	A53
Automatic document filing and retrieval	X32

B

Backfilling	D20
Balustrades	L30

Balustrades: precast concrete (non-proprietary)	F31
Barge boards	G20
Barriers and guard-rails	Q41
- for pedestrians/ vehicles	Q41
Bases: granular sub-bases to roads/ pavings	Q20
- in-situ concrete	Q21
Bathroom appliances/ fittings	N13
Baths	N13
Batteries	V31
Bead cavity wall insulation	P11
Beams: aluminium (framed)	G11
- - (isolated)	G12
- precast concrete	E50
- steel (framed)	G10
- - (isolated)	G12
- timber	G20
Beds	N10
Beetle eradication	C52
Bells: alarm	W41
Below ground drainage	R12
Benches	N10
Bicycle stands	Q50
- - in precast concrete paving	Q25
Bidets	N13
Bird control	N16
Bitumen & fibre profile sheet cladding/ covering	H33
- fibre thermoplastic sheet coverings/ flashings	H76
- trowelled flooring	M12
Bitumen/ bitumen based materials: felt in built up roof coverings	J41
- - - shingling	H66
- - - liquid applied tanking/ damp proofing	J30
- - - - waterproof roof coatings	J31
- - - - profiled sheet cladding/ covering/ siding	H33
- - - - reinforced thermoplastic sheet coverings/ flashings	H76
- - - roof screeds	J21
- - - sheet tanking/ damp proofing	J40
- - - trowelled flooring	M12
Bituminous felt shingling	H66
Blinds	L10
Blinds: internal	N10
Block composition flooring	M42
- flooring: wood/ composition/ parquet	M42
- parquet flooring	M42
- roads/ pavings	Q24
- walling	F10
- - accessories/ sundry items	F30
- - glass	F11
- wood flooring	M42
Blocks/ blockwork: accessories for walling	F30
- - clay/ concrete	F10
- - glass	F11
- - interlocking block roads/ pavings	Q24
Board fine flooring/ linings: timber	K21
- flooring/ decking/ sarking/ linings/ casings: timber	K20
Boards for LV switchgear and distribution	Y71
Boards: backing to plastered coatings	M20
- insulation as permanent formwork	E20
- - with rendered finish	M21
- other than plasterboard	K11
- plasterboard	K10
- rigid sheet cladding	H20
- timber for flooring/ decking/ sarking/ linings/ casings	K20
- - weatherboarding	H21
- under purlin/ inside rail panel linings	K12
Boilers: alternative fuel	T16
- coal fired	T11
- domestic	T32
- electrode/ direct electric	T12
- for hot water	S12
- gas/ oil fired	T10
Bollards	Q50
Bolts	P21
Bonding and earthing	W51
- - components	Y80
Breather membranes	P10
Brick interlocking roads/ pavings	Q24
- pavings	Q25
- walling	F10
- - accessories/ sundry items	F30
Bricks/ brickwork: accessories for walling	F30
- - clay/ concrete/ calcium silicate	F10
- - kerbs/ edgings/ channels for pavings	Q10
- - pavings	Q24-Q25
Building contractors	A02
- fabric	Z
- - sundries	P
- - survey	C13
- fabric: fixing to	Y90
- - reference specification	Z
- - sundries	P
- - survey	C13
- - management systems	W60
- - management/ central control	W60
- - management: central control	W60
- manual: requirements for	A37
- operation/ maintenance of the finished building	A37
- services	R-Y
- - contract: preliminaries/ general conditions	A64
- - survey	C14

- services: existing (details of)	A12
- - - (work to)	C
- - - reference specification	Y
- - separate contract preliminaries/ general conditions	A64
- - sundry work in connection with engineering services	P30-P31
- - survey (building)	C14
- - (underground)	C12
- - temporary (cost items for)	A42
- - (employer's requirements)	A36
- units prefabricated	B11
Buildings: complete	B
- existing (details of)	A12
- - (new work)	A13
- - (the site)	A12
- - (work to)	C
- new (proposed work)	A13
- prefabricated	B10
Built up felt roof coverings	J41
Burglar alarms	W41
Buried engineering services: trenches/ pipeways/ pits for	P30
Busbar trunking	Y62

C

Cabinet: safety/ fume cupboard extract	U15
Cable tensioned fabric roofs	H90
Cables: support for	Y63
- trunking for	Y60
- wiring	Y61
Calcium sulphate based screeds	M13
Calling systems: paging/ emergencies	W11
Calorifiers	Y23
Cameras: TV	W20
Canopies	L10
Car park ventilation	U13
Carcassing metal/ timber: structural	G
Carpentry	G20
Carpeting: edge fixed	M51
- secured with adhesives	M50
- tiles	M50
Carving: natural stone	F21
Casings: glassfibre reinforced gypsum	K14
- plasterboard dry lined	K10
- rigid sheet	K11
- timber board	K20
Cast in place concrete piling	D30
- into in-situ concrete: accessories	E42
- stone slab cladding/ features	H52
- stone: ashlar walling/ dressings	F22
- - - (accessories/ sundry items)	F30
- - dressings	F22
- - roof tiles	H63
- - slab cladding/ features	H52
- - walling	F22
Casting in-situ concrete	E10
Catering equipment	N12
Cats eye road studs	Q10
Cavity trays/ closers	F30
- wall insulation	P11
CCTV systems: audio visual	W20
- security	W41
Ceiling heating: electric	V50
Ceilings: demountable suspended	K40
- plasterboard dry lined	K10
- plastered/ rendered/ roughcast	M20
Cement: based screeds/ toppings	M10
- fibre profiled sheet cladding/ covering/ siding	H30
- - slating	H61
- glassfibre reinforced panel cladding/ features	H40
Cementitious render: waterproof	J10
Central control/ building management	W60
- heating: complete simple systems	T32
- refrigeration plant	T60
- - plant	R30
Centralised vacuum cleaning	R30
Ceramic tiling/ mosaic	M40
Cesspools	R12
Chairs: general purpose	N10
Channels for pavings	Q10
Chases for services	P31
Chemical DPCs	C45
- treatment of pipelines	Y25
- treatment: cleaning	Y25
Chilled water	T61
- - distribution	T61
Chimney pots	F30
Chimneys for incineration plant	R33
Chipboard	K11
Chutes: fire escape	X14
- refuse disposal	R31
Cinematographic equipment	W21
Cisterns	Y21
Cladding	H
Cladding: aluminium strip/ sheet	H72
- bitumen & fibre profile sheet	H33
- cast stone slabs	H52
- copper strip/ sheet	H73
- fibre bitumen thermoplastic strip/ sheet	H76
- - cement profiled sheet	H30
- glassfibre reinforced cement panels	H40
- - plastics panels	H41
- lead sheet	H71
- malleable metal sheet prebonded	H70
- metal panels	H43
- - profiled/ flat sheet	H31
- natural stone slabs	H51

- plastic profiled sheet cladding/ covering/ siding	H32
- precast concrete panels	H42
- - - (integral with structural frame)	E50
- - - slabs	H50
- profiled bitumen and fibre sheet	H33
- fibre cement sheet	H30
- metal sheet	H31
- plastics sheet	H32
- rain screen	H92
- rigid sheet	H20, K11
- stainless steel strip/ sheet	H75
- timber weatherboarding	H21
- zinc strip/ sheet	H74
Clay roof tiling: double lap	H60
- - single lap	H65
Cleaning and chemical treatment	Y25
- equipment	N27
- masonry/ concrete	C40
- of pipelines	Y25
- systems: centralised vacuum	R30
Clear finishing	M60
Clerk of works	A10
Cloakroom fittings/ lockers	N10
Clocks	W23
Closed circuit television: audio visual	W20
- - security	W41
Clothes driers: external	Q50
Coal fired boilers	T11
Coated macadam roads/ pavings	Q22
Coatings: anchored reinforcement for plaster	M30
- building fabric reference specification	Z31-Z33
- for services	Y91
- intumescent for fire protection of steelwork	M61
- liquid	Z32
- - applied for waterproof roofing	J31
- metal mesh lathing for plaster	M30
- paint	M60
- plastered (related work)	M50-M51
- plastered/ rendered/ roughcast	M20
- powder	Z31
- resin bound mineral	M23
- sprayed monolithic	M22
- waterproof	J
Cobble pavings	Q25
Coils: heating/ cooling	Y43
Cold and hot water (self-contained specification)	S12
- rooms	T71
- water supply systems	S10
- - systems: specified as part of a simple hot and cold water installation	S12
Collapsible board permanent formwork	E20
Collection: dust	U20
Collectors: solar	T15
Combined heat and power generation	V10
Commissioning: electrical services	Y81
- mechanical services	Y51
Common electrical items	Y89
- mechanical items	Y59
Communication systems	W
Compact disc players	W20
Compacting: concrete	E10
- earthwork	D20
- existing ground	D11
Compactors for refuse	R32
Complete buildings/ structures/ units	B
Completion/ making good defects	A33
Components: cable support	Y63
- earthing and bonding	Y60
- mechanical control	Y63
Composite concrete decking	E60
- - composite: integral with structural frame	E50
Composition block flooring	M42
Compressed air supply systems	S30
- - systems: high quality air	S31
Computers	N10
Concrete: accessories cast into	E42
- bases to roads/ pavings	E10
- blinding	E10
- cast in place concrete piling	D30
- cleaning	C40
- composite decking	E60
- construction in general	E05
- cutting to	E41
- decking	E60
- designed joints	E40
- floor/ wall tiling	M40
- formwork	E20
- in-situ bases to roads/ pavings	E10
- construction in general	E05
- cutting to	E41
- designed joints	E40
- formwork	E20
- mixing/ casting/ curing	E10
- pavings	Q21
- post tensioned reinforcement	E31
- reinforcement	E30
- roads/ pavings/ bases	Q21
- worked finishes	E41
- in-situ/ large precast	E
- large precast	E
- mixing/ casting/ curing	E10
- partitions	K33
- pavings	Q21
- post tensioned reinforcement for	E31
- precast	E, F, H, Q
- - decking	E60
- frame structures	E50
- panel cladding/ features	H42
